SUMMARY

Full Stack Web Developer with dedication to life-long learning and constant improvement of skill set. Experienced at building web-based applications with intuitive and responsive design. Effective communicator, compassionate. Strong attention to detail and problem solving.

TECHNICAL SKILLS

Languages: JavaScript, NodeJS, REST APIs, ReactJS, MongoDB, MySQL, jQuery, CSS, HTML
Concepts: Asynchronous Programming, Web Performance, Networking, Responsive Design, Databases

EDUCATION

Certificate in Full-Stack Web Development: University of Denver, Denver, CO
A 24-week intensive program focused on gaining technical programming skills in HTML5, CSS3, Javascript, JQuery, Bootstrap, Firebase, Node Js, MySQL, MongoDB, Express, Handelbars.js & ReactJS.

PROJECTS

Lyngua | https://github.com/akarpisz/lyngua | https://lyngua.herokuapp.com
- Developed and designed an application where users can translate text, save translations, and send translated messages to other users.
- Tech Used: NodeJS, ReactJS, ExpressJS, MongoDB/Mongoose, Azure translator API.

Raspberry Pi Baby-Monitor | https:// github.com/akarpisz/ReactExpressJS-Baby-Monitor
- Designed and created a small baby monitor app to be used with a Raspberry Pi SBC, camera module, and JavaScript.
- Tools/Tech Used: NodeJS, ReactJS, ExpressJS, Linux Motion program, Nginx Server

oTravelTo | https://github.com/NekoCarreraDesigns/project-2
- Our goal was to create a Colorado themed travel site, where a user could lookup prospective locations to visit, as well as track where they had been.
- Wrote most of the backend Javascript, configured authentication, implemented the MySQL database (using the Sequelize ORM), and wrote the Handlebars templates.
- Tools/Tech Used: NodeJS, jQuery, ExpressJS, MySQL and Sequelize, Handlebars, PassportJS

Brews and Blues | https://github.com/akarpisz/masterproject1 | https://akarpisz.github.io/masterproject1
- The team created a search engine, allowing you to find a brewery near a concert, or vice versa. It uses the TicketMaster API and the Zomato API.
- Wrote all the JavaScript and ensured proper functioning of the APIs.
- Tools/Tech Used: JavaScript, HTML, Materialize CSS Framework, jQuery, and the TicketMaster and Zomato APIs.

Communications Technician, Comcast, Lakewood, CO   **2018 – 2020**

Worked independently, installing residential Comcast services. Used critical thinking to troubleshoot issues. Communicated professionally with customers from arrival to completion of assignment. Assisted other team members on assignments and communicated status and issues with superiors.

Key Accomplishments:
- Noted for great customer service and teamwork.

Personal Care Technician, Kindred-At-Home, Denver, CO   **2018**

Provided personalized one-on-one care to clients with disabilities, dementia, and/or on hospice care. Provided emotional support, companionship, light housekeeping, meal preparation, and other care duties. Updated management on patient status.

Key Accomplishments:
- Awarded "Caregiver of The Month" for August 2018.

Cook / Service Attendant, Sodexo Services, Denver, CO   **2016 – 2018**
CenturyLink Mineral Ave offices and Graland Country Day School:

Multi-tasked to meet deadlines. Provided quality service while being personable and professional. Worked as a member of a team to meet company goals.

Key Accomplishments:
- Customers and management praised work ethic and personalized service.
